

**PORT OF WHITMAN COUNTY
PUBLIC NOTICE
REQUEST FOR QUALIFICATIONS
ARCHITECTURAL/ENGINEERING**

The Port of Whitman County is generally announcing to the public its projected requirements for professional services for 2011.

The Port anticipates a continuing need for architectural and engineering services related to small and mid-sized projects including but not limited to: park enhancements and/or expansions, industrial park development, building design, site upgrades, etc. The Port may also have need of other consulting services from time to time.

Architectural/Engineering firms interested in providing services to the Port of Whitman County are requested to send a brief statement of qualifications. Firms who have qualifications on file at the port are not required to resubmit. It is the firms' responsibility to verify whether or not their qualifications are on file. The Port reserves the right to discard qualifications which have not been updated within three years.

Consultants will be selected from those with qualifications on file unless a separate request for qualifications is made by the Port for a specific project or projects. DBE Firms are encouraged to submit. Submit qualifications to:

Port of Whitman County
N. 302 Mill Street
Colfax, WA 99111
